ALBERTA RED

Kansas Looks to Alberta For Turkey Red Seed

A. M. Teneyck, Professor of Agronomy, Kansas State Agricultural College and Experimental Station, Manhattan, Kansas, accompanied by W. H. Fairfield, manager of the Experimental Farm, Lehigh, was in town Tuesday on a trip through the winter wheat districts of Alberta.

While here the visitor driven by Mr. H. G. Y. Husein to several of the early fields of Turkey Red. They were very much pleased at our good prospects for a bumper crop and remarked that the crops here were the best that they had seen.

Professor Teneyck spoke of the wonderful improvement in the quality of the Turkey Red (now Alberta Red) since the original seed in Alberta was brought from Kansas a few years ago. He is here in the interests of the agricultural Department of the State of Kansas and he says that the Turkey Red of that country is gradually developing into a soft wheat. The chief object of his visit here is to make arrangements for the shipping back to Kansas of samples of Alberta Red from different parts of Alberta to be sown at different experimental stations in that state. The samples will be sown this fall and the professor expects from this to prove the correctness of the conclusion, which has been arrived at by the best agriculturists of Kansas, and that is that the only way to maintain the original quality of Turkey Red wheat is to every few years change their seed for that grown in a northern country.

As Alberta is the only northern country where the Alberta Red grows to any extent they will naturally come here for their seed.

Professor Teneyck said that if the experiments of Alberta grown seed shall be successful as he expected them to be, there would be much Alberta Red seed bought here next year and shipped to Kansas.

In speaking of the crops the gentlemen said that the farmers would do well to pull what wheat is mixed with their Alberta Red in order to keep the seed pure. Mr. Fairfield stated that the crops here were equally as good as those grown on the irrigated land near Lethbridge.

Professor Teneyck and Mr. Fairfield left on the afternoon train Tuesday for High River, Calgary and Lethbridge.

NEW TELEPHONE Co.

Farmers of Elinor and Star Line Organize Prairie Farmers Telephone Co.

A large and enthusiastic meeting of the farmers of the Elinor and Star Line districts was held in the Star Line school house Wednesday for the purpose of organizing a Farmers Telephone Co. The farmers of those two districts have, without any previous organization, got about thirty-five miles of barb wire telephone line in operation now, which is giving good satisfaction. But as they wished to bring the line to Clareholm and as this would involve the expenditure of a considerable sum of money they thought it best to organize and incorporate and sell stock to raise sufficient money. With this object in view a company to be known as the Prairie Farmers Telephone Co., was started Wednesday evening. The provisional directors elected were Messrs Williams, Lowe, Huse, Berg, Lindsay, Yalfinger and McGinnis. It is the intention of the company to complete a barb wire line to Clareholm at once in order to have it in operation for the busy season this fall. The barb wire is only a temporary arrangement. Within a year it is expected that the whole system will be operated over eight lines.

There are fifteen phones already in operation and at Wednesday's meeting fifteen more promised to put them in and take stock in the company. The prospects are that many more will take telephones as soon as the line is completed to town and ultimately the whole farming district surrounding Clareholm will be included in this system. The prices of the shares of stock were placed at \$10.00.

WHEAT BEING CUT

Farmers are now Cutting Winter Wheat. Extract from C. P. R. Crop Report

Okotoks—Weather cool and showery. No damage to crops. Cutting will likely start end of week.

High River—Weather has been somewhat cool but warmer now. Light frost Sunday but no apparent damage. Good average yield of grain expected. Fall wheat cutting will commence about end of week.

Nanton—Crops looking well.

Weather cool and showery. No damage.

Staveland—Cutting expected to be

FOOT BALL

Linham Again Fall A Prey to Victorious Clareholm

By defeating Linham in Okotoks Saturday last by a score of 3 to 2 the Clareholm foot ball team have added one more to their long list of victories. This team has done wonderfully well this season especially when we consider that this is their first year for this game. Out of twelve games they have won from Macleod, Leavings (twice), Okotoks and Linham (twice), lost to High River and Okotoks and tied with Macleod (three times) and Leavings. They have one more league match to play with High River which if they win will place Clareholm second in the league, Okotoks having the cup already won. Within a few days the team will go to Macleod to again play for the cup presented at the fair. The boys are after this cup and intend to bring it home with them. In this game they will have a good team and a good crowd should go along and root for them.

SUMMONSES ARE ISSUED

Attorney General Has Commenced Proceedings Against Members Of Alleged Combine

Edmonton, Aug. 20.—Information was sworn out today by Inspector Worsley charging the members of the executive committee of the Alberta Lumber Dealers association with two offences provided for by the criminal code in respect to the conspiracies in relation to trade combinations.

The persons charged are as follows: P. A. Prince, Calgary; W. C. Clarke, Edmonton; F. D. Becker, Calgary; O. M. Grogan, Calgary; F. W. Irwin, Vauxhall; J. McDonald, Edmonton; A. G. Gross, Wetaskiwin; D. C. Guorlay, Lacombe; Wm. Dean, Olds; W. L. Stewart, Calgary; W. Barclay, Clareholm and J. McNichol, Lethbridge.

The preliminary investigation will be held before Inspector Worsley on Thursday, Sept. 5. The Crown will call witnesses from British Columbia as well as from this province.

The attorney general's department have been very busy preparing about 1,500 summonses setting out fully what the crown requires each individual witness to produce.

RAILROAD RACE FOR PRIZE

Canadian Pacific Will Outflank Its
Dominion Rivals and Retaliate
On James J. Hill

Calgary, Alberta, Aug. 25.—The Canadian Pacific Railway has announced that it will meet the proposed invasion of its territory by the Grand Trunk and the Canadian Northern by running an extension of its own north from Lethbridge, into the heart of the rich wheat country that the other roads are preparing to cross. This means that four railroads have begun the most exciting railroad building race in the history of Canada, with the territory east of this city as the goal.

The increasing importance of the Southern Alberta winter wheat crop which is largely grown by American farmers who have emigrated from the States, is responsible for this sudden activity, and the story of the chain of events leading up to the Canadian Pacific's announcement forms a vivid chapter in the romance of railroad making.

The Canadian Pacific Railway was the first in the field, and for years handled the entire grain crop of southern Alberta, then worth less than a million dollars. When the Grand Trunk decided to build west to the coast its officers saw that it would have to have some of this traffic, so the Grand Trunk announced that it would build a branch line from the north Saskatchewan river to Calgary. This was followed by rumors that the Canadian Northern intended running an extension down to Calgary, somewhat west of the Grand Trunk's proposed route. Then Jim Hill set every one by the ears with the announcement that he was going to join the contest by bringing the rails of the Great Northern from Montana right up into the heart of the disputed territory.

The total crop of western Canada was then worth \$100,000,000, and Sir Thomas Shaughnessy, president of the Canadian Pacific, signified his purpose of holding control of its transportation by leasing his famous promissory note that he would build two miles of railroad in the United States for every mile Hill built in Canada. Since then the crop has increased still more is situated now in the face of a shortage south of the international line and the Canadian Pacific has at last taken active steps to meet the competition of its rivals by building ahead of them and directly across their proposed routes.

The exact course of the extension from Lethbridge has not yet been announced, but it will strike north through the fertile lands east of this city, and will probably cross the main line of the railroad between Chebucto and Stirling. This will open up a new section of the company's 3,000,000-acre tract of farm land, which it is bringing under irrigation.

This is the largest irrigation project on the continent, and is the principal reason for the desire of the Canadian Pacific to build ahead of its rivals. The territory affected is larger than the combined states of Delaware and Rhode Island, and needs only the assurance of water to render it the finest kind of a farming country, says Dr. Edward Mead, a United States government engineer, who recently investigated it.

The railroad is preparing to spend between five and six million dollars in the project. One thousand miles of canal have already been dug, opening up a third of the territory to cultivation, but 1,300 more miles of canal must be dug and 21,750,000 cubic yards of material moved before the gigantic task will be completed.

Besides the Lethbridge extension the Canadian Pacific is planning a cut-off from Moosasin to Stupard, similar to the ones which E. H. Harriman is now building, at the expense of millions, to shorten the main line of the Union Pacific. The Moosasin cut-off will save ten miles, get rid of a 1 per cent grade and open up a new part of the irrigation tract. A reason for the hastening of the railroad's plans in regard to the Lethbridge extension is the progress of the winter wheat crop. It is estimated that this will be the biggest in the history of Alberta.

BY A DREAMER

HER MONUMENT

She built it herself, and she did not know that she had a monument. She lived in it, but she did not know that it existed.

Her monument was her home. It grew so quietly, so quietly as a flower grows, and no one knew—she did not know herself—how much she had done to build and water and trim it.

Her husband had absolute trust in her. He earned the money; she expended it. And she put as much thought in her expenditure as she put in his earning, each dollar was doubled in the expending. She had inherited the mysterious faculty which we call taste, and she cultivated it with fidelity. Every home she visited she studied, though always unconsciously, as though it were a museum or an art gallery; and from every visit she brought away some thought which came out of her loving imagination fitted to its appropriate place in her own home. She was too genial to be an imitator—for imitation is always of him to falsehood—and she abhorred falsehood. She was patient with everything but a lie. So she never copied in her home or on her person what she had seen elsewhere; yet everything she saw elsewhere entered into and helped to complete the perfect picture of life which she was always painting with deft fingers in everything, from the honeysuckle which she trained over the door, to the bureau in the guests room which her designing made a new mode of art for every low friend, if it were only by a new doorway and a change of vases. Putting her own personality into her home, making every room and almost every article of furniture speak of her, she gave the gift to draw out from every guest his personality and make him at home and so make him his trust and best self. Whether man or woman of the world could long resist the subtle influences of that home, the warmth of its truth and love thawed out the frozen properties from impersonated etiquette, and whatever circle of friends sat on the broad piazza in summer or open fire in winter knew for a time the joy of liberty—the liberty of perfect truth and perfect love. Her home was hospitable because her heart was large; and anyone was her friend to whom she could minister. But her heart was like the old Jewish temple—strangers only came into the court of the gentiles, friends into the inner court, but her hand and her children found a court yet nearer her heart of hearts; yet even they knew that there was a holy of holies which she kept for her God and they loved and revered her the more for it. So strangely was commingled in her the exclusiveness of love, its hospitality and its reserve.

Ah, blessed homemaker, there is nothing so sacred on earth, and no priest on earth so divine as the wife and mother who makes it.

Big Powder Explosion

Medicine Hat, Aug. 12.—The whole city was shaken this morning by the explosion of 3,000 pounds of powder. The explosion occurred in the old Earl residence, just outside the corporation limits.

The powder was being transferred to the new magazine at Medicine Hat Junction and it is thought the men engaged in the work may have been smoking and carelessly dropped a match.

George Austin and George Brown were in the building at the time. The former's clothing caught fire and he was horribly burned before it could be cut off him. His recovery is not expected. Brown escaped almost unharmed.

A team of horses standing near had their legs completely off and were badly burned in spots. Nothing is left of the house.

Chamberlain's Colic, Cholera and Diarrhoea Remedy, Better than three bottles.

"Three years ago we had three doctors with our little boy and everything that they could do seemed to be gone. We began using Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy a child as parents could wish for."—Mrs. B. J. Johnson, Linton, Minn. Wheat Being Cut

(Concluded from last page.)
general about end of week. Some damage to crops about 25 miles east from here.

Claresholm.—Weather very favorable. Harvesting has started and will be general in day or two. Expected oats will yield average of about 50 bushels to the acre.

Fair.—Heavy rain last Wednesday. Harvesting now being done. Macleod.—Weather cool. Fall wheat ripe and being harvested. Spring wheat ripening. No damage from hail or frost.

Brocket.—Haying and harvesting now being done, wheat averaging about 40 bushels to acre. Weather mostly fair and warm, but slight frost Saturday night. No damage reported.

Pincher.—Weather favorable all week. Cutting will be started this week.—Frost on Saturday night, but cannot say whether any damage.

Cowley.—Harvesting of winter wheat will probably start this week. Spring grain growing well. Frost Sunday night but no damage reported.

Lundbrik.—Garden crops in few places slightly damaged by frost, all other crops in good shape. Spring grain headed and very full.

THE CLARESHOLM REVIEW

Pills get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made from purest ingredients and is positive and certain in its action. It is positive and certain in its action. It is positive and certain in its action.

Two year old red steer, with white star. Branded 7 on left shoulder and H on left hip. Owner can have same by proving pedigree and paying charges.
Major Schoof.

Had an Awful Time
But Chamberlain's Colic, Cholera and Diarrhoea Remedy cured him. He is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of cholera I got caught out in a hard rain and the measles settled in my stomach. I am now strong and well. I have written the above through sincere gratitude and I shall always speak a good word for this remedy.
—S. M. H. Gilm, (Concord, Ga.) For sale by Claresholm Pharmacy.

Claresholm Cricket Club

Two cricket matches have recently been played between an eleven raised by the two banks, and an eleven representing the town. The first, on Saturday the 10th, resulted in a victory for the banks by 40 runs. The feature of the game was the batting of Eric Moffatt who had never before handled a cricket bat.

The scores of the first game were as follows:

The Banks	Runs
O. Moon b. Rawson	8
H. Rowan b. Rawson	6
A. M. Chalmers b. Rawson	0
O. J. Wood c. Switzer b. Rawson	5

Watch in Cow's Lung

New York, Aug. 1.—A dispatch from Lexington, Ky., says Dr. D. H. Bell, one of the best known veterinarians in this city, has been called in to touch for the finding of a gold watch in the lung of a cow by F. Dryden, a butcher, and also appointed referee in a controversy over the claim to the watch made by the original owner, Israel Ludge.

Dr. Bell says that in the spring of 1901 Mr. Rabey was at work in his barnyard when a calf got hold of his watch and threw it into the cow. He could not find his gold watch, but when he sold the cow a few months ago to Mr. Dryden he said he had the animal had swallowed his gold watch six years before and jokingly told the butcher to look out for it.

Mr. Dryden found the watch in the left lung of the cow. He says the watch was running and recorded the correct time within ten minutes.

Dr. Bell says the only way he can account for the watch running is that the breath of the animal kept it wound up, owing to the position it occupied in the lung. He holds that watch belongs to the butcher. The farmer is not satisfied and may go to court.

ENTRAY
On the premises of C. M. Carlson, Claresholm, N.E. 35-1-22-2-4-1 grey horse branded on right shoulder, weight about 1,200 pounds, shod all around.
